- European Chemicals Agency (ECHA)

New Zealand EPA Inventory of Chemical Status

4-Hydroxybenzoic acid: Does not have an individual approval but may be used under an appropriate group standard

- New Zealand Environmental Protection Authority (EPA)

12.3.1 Atmospheric Standards

This action promulgates standards of performance for equipment leaks of Volatile Organic Compounds (VOC) in the Synthetic Organic Chemical Manufacturing Industry (SOCMI). The intended effect of these standards is to require all newly constructed, modified, and reconstructed SOCMI process units to use the best demonstrated system of continuous emission reduction for equipment leaks of VOC, considering costs, non air quality health and environmental impact and energy requirements. 4-Hydroxybenzoic acid is produced, as an intermediate or a final product, by process units covered under this subpart.

40 CFR 60.489; U.S. National Archives and Records Administration's Electronic Code of Federal Regulations. Available from, as of July 1, 2004: https://www.ecfr.gov
